Portfolio: harnarayan-gen5rom.github.io/GEN5ROM/

PROFESSIONAL SUMMARY

Video Editor and Motion Graphics Designer with 1 year of experience creating real estate marketing videos, creator content and AI-focused media. Works across Adobe Premiere Pro and After Effects to combine storytelling, motion graphics, visual effects and sound design, from concept through final delivery.

CORE SKILLS & SOFTWARE

Software: Adobe After Effects, Premiere Pro, Photoshop, Illustrator, Adobe Dimension and DaVinci Resolve.

Post-production: Video editing, motion graphics, visual effects (VFX), compositing, motion tracking, animated typography, color grading and sound design.

Creative: Visual storytelling, graphic design, branding, social media content and AI-assisted production with generated presenters and visual assets.

PROFESSIONAL EXPERIENCE

Video Editor & Motion Graphics Designer Apr 2026 - Sep 2026

Zigency | Delhi | Full-time

- **Real estate marketing:** Edited property showcases, promotional videos and social media reels, combining footage, animated typography and supporting graphics.
- **AI & technology content:** Produced videos from scripts and concepts using AI-generated presenters and visuals, motion graphics, VFX and sound design.
- **Brand content:** Developed transitions and motion graphics aligned with brand identity and campaign messaging; delivered final edits for social media.
- Created and edited video content published on @vinayakk.ai, @vinayak_ncr and @zigency.in.

Freelance Video Editor & Motion Graphics Designer Nov 2025 - Apr 2026

Independent Projects | New Delhi

- Edited videos and short-form content for YouTubers and digital creators, incorporating cinematic cuts, motion graphics and social media visuals.
- Adapted pacing, narrative structure and graphics to each creator's style and platform, with an emphasis on viewer engagement.

Video Editor Intern Aug 2025 - Oct 2025

Neofox Media | Delhi

- Edited long-form and short-form videos, promotional trailers and showreels for personal-brand creators; organized footage and developed narrative cuts.
- Applied color grading, audio finishing, motion graphics and text overlays; incorporated client feedback and exported videos for digital platforms.
